

# 611 Leadership Institute (GA Branch)

2024

## Admission Information

*The Principle*  
Rev Joshua Cheung

### Embarking on the Blessed Path of the Tree of Life

In today's international political turmoil, societal divisions, the prevalence of various afflictions, and the increasing darkness in people's hearts, these are by no means the will of God! Where can the remedy for the world be found? God wants us to become the Tree of Life! Only the Tree of Life can heal the nations and provide the answer to all problems.

If you are eagerly seeking self-renewal and family blessings, and carry a burden for this lost and confused generation, besides fervently attending church services and cell groups, enrolling in 611 Leadership Institute (GA Branch) will help you grow in all aspects and delve deeper into the truth. This is the only way to participate in the widespread planting of the Tree of Life!

611 Leadership Institute implement new courses every year, spreading the Breath of the Tree of Life. It also offers practical internships through the development of our personal "Being" to accelerate personal growth. Not only do we absorb knowledge, but also transform our lives. We wish for everyone to embrace the Tree of Life together, respond to the call to plant the Tree of Life, and embark on the blessed path!

### From being Inconspicuous To withstanding the Storm With POWER

When I prayed for the institute, I saw reeds and grasses covering the hills in the autumn. I heard God said, "these reeds and grasses though seem to disappear when the harsh winter comes and the wind blows, yet they have a powerful vitality. In the following spring, they become vibrant and lush once more.

God said, "The institute and everyone associated with it may seem unremarkable and weak, but they possess a strong vitality. Trees may be knocked down by the wind and struck by lightning, but these grasses always stand tall. When the wind stops, they would straighten up again. Moreover, after a heavy rain, they grow even better!

(Prophesy for the Institute, July 26, 2023)

### God's Love Heals me and Restores me

*Current Student*  
Sister Chang Kher Phay  
Software Engineer

In the past, I was a loner, suppressed, isolated from others and unhappy.

After entering into 611 Online Leadership Institute, I found that the students are very enthusiastic and the teachers also work hard to build up the students. In this environment of love and trust, I slowly let down my guard. Now, I can express my thoughts more openly, and live a more relaxed and joyful life.

Thank God for healing me and restoring my relationships with people. Glory to God!

*The Graduate*  
Brother Joel Lee  
Executive Director's Assistant  
Iarnah Group

### Be Humble, Receive Grace Rely on God and Breakthrough

In the past, I was very rational, self-centred, focused on the rights and wrongs of things, closed off and guarded myself.

Through the school equipping, I learned to be humble, accept and understand the feelings of my wife and children, and our relationships became closer. In addition, God healed and restored my love and trust in people.

Now, I can work with ease and joy. Thank God!
